

FINDING EGLIN AFB PROJECTS ON “BETA SAM” (www.beta.sam.gov)

All sources sought, RFI, presolicitation, and solicitation notices on requirements over \$25,000 (with a few exceptions) are posted on Beta Sam website: <https://beta.sam.gov/> , formerly known as the Federal Business Opportunities. It is the contractor’s responsibility to access the website and download posted documents related to a specific notice.

To search for Eglin AFB presolicitation and solicitation notices on <https://beta.sam.gov/>:

- a. Change the current drop down menu to “**Contract Opportunities**” at top of home page.
- b. Press “search”.
- c. Scroll down until you see “Place of Performance Location” on the left side and enter “32542”.

Contractors are able to establish a no-cost secured account (password protected) to search, retrieve, monitor, and schedule automatic email notices of posted opportunities. The Vendor User Guide is a good tool to help contractors navigate <https://beta.sam.gov/>.

Helpful hint: If using the zip code doesn’t help, look for contract numbers beginning with FA2486, FA2487, FA2823, or FA8656

For more information, contact the Eglin AFB Small Business Program Office at aac.sb@us.af.mil.
