

DI TECHNICAL SHOWCASE

ACCEPTING SUBMISSIONS FOR AUTONOMOUS TARGET RECOGNITION

Seize the opportunity to present your technical capabilities to scientists and researchers from AFRL Munitions Directorate (AFRL/RW) and other federally funded research labs!

Participate in the [DI Technical Showcase](#) event by submitting a brief description (2-pages or 5-slides) of your technical capability in each month's research area of interest. If selected, you will deliver a virtual 30-minute presentation directly to scientists from AFRL/RW and other labs. Visit our [website](#) to learn more about the event, and please pay special attention to the [submission guidelines and deadlines](#).

Gain valuable insight into what scientists at AFRL/RW are working on!

Join us for the February Autonomous Target Recognition virtual presentation by AFRL/RW's Dr. David Gray where he discusses recent projects and the lab's current and future technological needs. [Register here](#).

Don't work with AI or Autonomous Target Recognition?

Visit our website to learn about future months' technical themes – one might be your specialty! Like and follow us on [Facebook](#) and [LinkedIn](#) for the latest news about DI Technical Showcase. Questions? Email: techtransfer@doolittleinstitute.org.

DEADLINES

Submission Deadline: January 20th, 2023

Showcase: February 16th, 2023
